Estate of the Day: EPIC Residences & Hotel

By Haute Living

Destined to become one of Miami's most recognized waterfront landmarks, the newly completed EPIC Residences & Hotel has already made a splash on the Magic City's downtown shores.

The 54-story waterfront property, sits at the convergence the Miami River and Biscayne Bay, offering spectacular views of Miami's sparkling night lights, dancing off of the water's ripples. The high-rise luxury development presents one-, two-, and three-bedroom tower, townhouse, and penthouse residences, outfitted with the best names in the world of design and décor. Adorning the interiors are imported Italian Calacatta white marble baths, KOS tub and showers that measure 72 by 60 inches, Valli & Valli door hardware, Snaidero "Time" Cabinetry, Miele and Bosch appliances and Sub-Zero refrigeration. Advanced technology throughout the property includes an integrated system allowing interactive communication to hotel amenities and services through an in-residence touch panel or from a PC anywhere in the world.

Such a grand location is worthy of plush amenities, and EPIC delivers with two signature dining venues, Area 31 and Zuma Restaurants. River Lounge + Bar tempts the nightlife crowd with a distinctive ambiance, while Exhale Spa offers a 12,000-square-foot treatment facility. A residents-only entrance, lobby, and pool fulfills the need for privacy.

EPIC is the result of an innovative collaboration amongst Ugo Colombo's CMC Group, Alfredo and Diego Lowenstein's Lionstone Development, and Ponta Gadea Group. For more information contact 305.400.7399 or visit www.epicmiami.com
