Epic's Roof Upper Penthouse is Where Waterfront Living Meets Urban Energy

By Stephanie Wilson

It's the life that you were destined to be living, inside of one of the most picturesque penthouses in all of Miami. In the short time since its grand opening earlier this year, Epic Residences, located at the heart of the Miami River and Biscayne Bay, has redefined the downtown luxury lifestyle in the Magic City. The floor-to-ceiling windows of the Roof Upper Penthouse afford unparalleled views of South Florida's spectacular tangerine sunsets as well as the twinkling lights of the city skyline. Naturally top-of-the-line luxury brands adorn every room within Epic's Roof Upper Penthouse, including Miele, Subzero, Bosch, and Snaidero in the kitchen. Entertaining is made easy with a designated hosting room and wet bar on the second floor, along with a private terrace and splash pool. The master suite of the three-bedroom abode features two walk-in closets and a master bath outfitted with imported Italian Calacatta white marble. Though the features of Epic's Roof Upper Penthouse are so sumptuous you will never want to leave, should you decide to venture away from your 7,488 square feet of luxury space, Epic's renowned hotel guest amenities are available to Residence owners, including drinks at River Lounge, upscale dining at Area 31 and Zuma Restaurant, spa treatments at Exhale, and dockside services at EPIC Marina.

Whether it is arranging in-residence spa treatments from your EPIC-Link, reserving a poolside cabana for an afternoon with friends, or ordering room service for a dinner party or just one, living at EPIC means you literally have the world at your fingertips.
