EPIC Residences & Hotel, located in downtown Miami where Brickell Avenue meets Biscayne Bay, adds six new pieces by Eduardo Hoffmann to its museum-quality collection of art. The stunning, color-infused modern works of mixed media on canvas have been installed in one of the unparalleled Roof Upper Penthouses, making it a perfect addition to the impressive, permanent art collection throughout. Hoffmann's works join a selection of specially chosen pieces on permanent display by renowned local and international

artists, such as James Brown, Roberto Matta, Dario Basso, Fernando DeSzyszlo, Jose Bechara, Karina Wisniewska, Alexis Gorodine, Gye Hoon Park, and Ola Kolehmainen.

Curated by Miami-based Diana Lowenstein Fine Arts Gallery, EPIC's art collection reflects the property's unique surroundings with elegant simplicity and sophisticated style, while complementing the urban chic design essence of EPIC's exterior and interior spaces. In all, the collection of nearly 100 pieces of original works of art valued at more than \$2 million creates a masterpiece in luxury living for residents.

"Art is an integral part of everyday life that arouses and inspires the senses," stated Flavia Lowenstein-Elortegui, Associate Director at the gallery. "The pieces we've chosen for EPIC's art collection are a reflection of the Residence's place in the heart of the Miami, while also creating another facet of the distinctive EPIC lifestyle."

Chosen for their polished style and subject matter, each work celebrates the whimsical elegance of EPIC Residences & Hotel.
