FABULOUS FINDS

Works of Art in Miami

A museum-quality collection of art within **EPIC Residences & Hotel** (shown), in downtown Miami, recently gained six new pieces by Eduardo Hoffman. The color-infused modern creations were chosen for their polished style and subject matter.

Hoffmann's stunning works add to the impressive, permanent art collection that includes pieces by renowned local and international artists throughout one of EPIC's Roof Upper Penthouses.

Curated by the Diana Lowenstein Fine Arts Gallery, EPIC's art collection reflects the property's unique surroundings with graceful simplicity, complementing the urban chic design.

The collection of nearly 100 pieces values \$2 million, creating a masterpiece in luxury living for residents.
